

BRIDGESCORER & OTHER BRANDS

1. Start BridgeScorer Control (BSC) as usual.
2. When BSC is running: Start the other brand's control software (e.g. via Windows/All programs).
3. Initiate the tables that you want to run with third party units in the other brand's control software.
4. All results will appear in BSC but "Start" and "Stop" in BSC will not affect the third party units.
