

Running two concurrent, but independent, sessions with Bridge Scorers

(e.g. the Intermediate and Open sessions on Tuesday morning).

Ensure that all Scorers that you intend to use are showing the START page. Also ensure that there is no Table number locked in to any Scorer. This will appear immediately above the START line on the START page. If there is, go into the ADMIN menu and set it to 0.

DISTRIBUTE THE BRIDGE SCORERS TO THE TABLES IN THE FIRST SESSION ONLY.

1. Set up the first session in ASE. This will be the A event. **When you activate the Bridge Scorer screen, UNCLICK 'Score across the Field' at the top right.** Then proceed as normal, saving the session as, for example, 'Tuesday 17th May, 2012 AM Intermediate'.

DO NOT DISTRIBUTE THE BRIDGE SCORERS TO THE TABLES IN THE SECOND SESSION YET.

2. Set up the second session in ASE. This will be the B event. This will be saved with its own name, for example, 'Tuesday 17th May, 2012 AM'. Once the grid for the second session has appeared on the Bridge Scorer screen as the B event, **THEN AND ONLY THEN** distribute the units to the B tables, ensuring that all players in that session are told to nominate the B section.

Once all Scorers in both sessions are active both events should proceed normally to the end. You can move from one ASE session to the other using the File menu, and you can move from one Bridge Scorer session to the other by going from the A session to the B session.

It is irrelevant whether the boards in the two sessions are the same or different.
