 Cancel

2. Enter number of teams and number of boards in 1st set

Swiss teams details

What are the details of this Swiss session?

Total number of teams

Number of boards per match

Handling an odd number of teams

Procedure

Play a three way match

Use a one round bye

Three way match length

Played over 2 rounds

Played in 1 round

Times in three way match

Play only once

May play many times

Board score entry options

Data entry method

Board set number

3. Select "Teams draw" and enter the line up for the first session

Table 1	Table 2	Home	Away
1	5	1	5
2	6	2	6
3	7	3	7
4	8	4	8

4. Auto start BridgeScorers for the first session

5. Add new session

When first session has finished, take SESSION/NEW

and (important) say NO to automatic Swiss draw

enter the meetings in the 2nd session

A dialog box titled "Swiss teams numbers" with a blue header bar. It contains a table with 4 columns: "Table 1", "Table 2", "Home", and "Away". The table has 4 rows of data. The cell containing "1" in the "Home" column of the first row is highlighted with a blue background.

Table 1	Table 2	Home	Away
1	5	1	5
2	6	2	6
3	7	3	7
4	8	4	8

then repeat steps 1-4 above.

Note that you should set Board set 1 in the dialog

Board set number

or the board number will be too high.

Re. ROUND ROBIN TEAMS in PairsScorer

The simplest way is to organise this as 7 separate TeamsScorer sessions following a 4 table Howell movement.

When you combine the session as a Multisession event, you will get the overall Ranks and Cross Table.

See the manual for advice on Multisession events.

TESTING

Please set up a desktop test with e.g. 4 teams playing 2 board matches to verify that it works before you run the big event.
