# NETWORKING

Networking can be used when you use more than one Base Station.

LAN

*Or third party control software if you need to network BridgeScorers with third party hardware.

MASTER /SLAVE
The PC where you run the Scoring program will be the master and the other PCs slaves.

The master
The scoring software and the BridgeScorer Control is started as usual on the master PC.
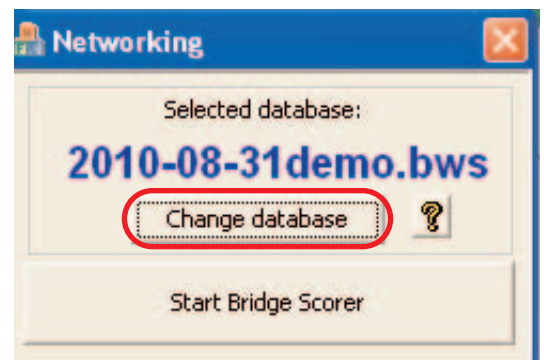

The slaves
The slave(s) can be connected to the master PC as soon as the scoring program has created a database for the event.
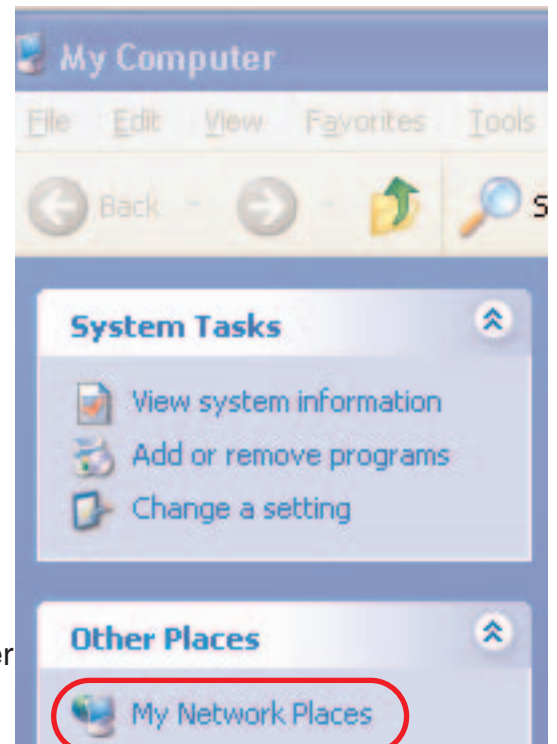

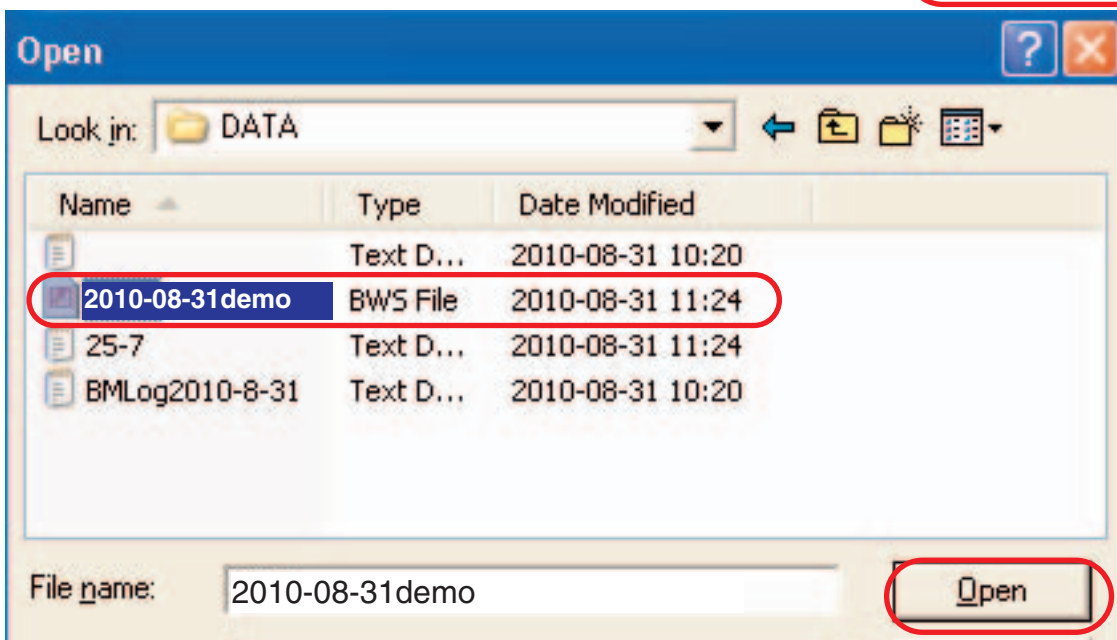

1. Select "Networking" in BOS

2. Click "Change database" in the dialog that appears:

3. Click "My Network Places"

4. Locate the current (just created) database on the Master PC. The default path is
 C:\BOS\Events\<Eventname>\Data\<Eventname.bws>
